Carl Dyas
Senior Estimator

Responsibilities

As Senior Estimator for Atlas Door and Hardware, Carl Dyas is responsible for providing clients with accurate, timely and competitive proposals for complete door and hardware bid packages, renovations, and repairs. Carl provides estimating and procurement support for Atlas Door and Hardware's walk-in sales and service counter and also coordinates the fabrication of parts with Atlas's in-house metal and wood fabrication shops.

Carl joined Atlas Door and Hardware in 2012 and has 33 years of commercial construction experience, including 25 years in the door and hardware industry. His project scheduling, purchasing, expediting and materials management experience in general construction provided both a solid project management foundation and appreciation for the need for thorough and precise door and hardware procurement and installation.

Areas of Expertise

Carl's extensive product knowledge of commercial hollow metal and wood doors and frames as well as finish hardware combined with his purchasing, expediting, and project management experience helps Carl accurately interpret material specifications, prepare competitive proposals, and expedite procurement of materials.

Professional Affiliations

Builders Exchange of Central Ohio
Associated General Contractors of Central Ohio

Education

Carl attended Ohio University, completing coursework in business and construction management.
